

Hello Members of SR-756!

Staff made it to camp Tuesday morning and got right to work. Looks like everything is in place and ready for your return to Gilwell on Thursday. I am already getting excited to see each of you Thursday evening when you arrive! Just a few quick reminders:

- Check the weather; it will be a little cooler this weekend than our first weekend.
- Bring your work clothes for the conservation projects. Staff has already started some of the prep work needed so we will be ready for the troop to work on the project.
- Remember all of your patrol project materials. We will be presenting these Saturday following the conservation project. Patrols will have some time to set-up for the projects. We will be presenting these in the Troop Room.
- Remember to rehearse your part in the Troop Campfire Friday evening.

Looks like that is it for now. The weather is great at camp!

See you soon.  
Craig
